Dear Sir / Madam

**PROPOSED N2 WILD COAST TOLL HIGHWAY: – DEAT DECISIONS REGARDING THE FINAL SCOPING REPORT AND THE PLAN OF STUDY FOR ENVIRONMENTAL IMPACT ASSESSMENT**

This letter provides information on the decisions of the Department of Environmental Affairs and Tourism (DEAT) regarding the Final Scoping Report (FSR) and the Plan of Study for Environmental Impact Assessment (PoS for EIA) for the proposed N2 Wild Coast Toll Highway.

Notice is hereby given in terms of the Environmental Impact Assessment (EIA) Regulations published in Government Notice R1183 of 5 September 1997 (as amended) under the Environment Conservation Act, 1989 (Act No. 73 of 1989) that DEAT has accepted the FSR and PoS for EIA.

The Applicant, the South African National Roads Agency Limited (SANRAL), has been requested to submit an Environmental Impact Report (EIR) to DEAT, the KwaZulu-Natal Department of Agriculture and Environmental Affairs and the Eastern Cape Department of Economic Affairs, Environment and Tourism for decision-making on the application for authorisation. The EIA process will therefore continue with specialist studies to investigate and assess the key potential impacts of the proposed project and identified feasible alternatives as described in the FSR. A Draft EIR, integrating the findings and recommendations of the specialist studies and other relevant information, will then be compiled and distributed for public review and comment.

The full DEAT decisions regarding the FSR and PoS for EIA are available on the websites [www.ccaenvironmental.co.za](http://www.ccaenvironmental.co.za) and [www.nra.co.za](http://www.nra.co.za).

We would like to thank you for your interest in the project and should you have any queries on the above, or require any further information, please do not hesitate to contact us.
