THE SOUTH AFRICAN NATIONAL ROADS AGENCY LIMITED AND NATIONAL ROADS ACT, ACT 7 OF 1998

The following applications must be forwarded to SANRAL for consideration in terms of Act 7 of 1998:

- Accesses (Section 44)
- Building Works/Town Planning/Development (Section 48)

Notes:
*Any additional information required will be requested from the applicant.
Services on, over or below the Road reserve  (Section 48)

Subdivision of land  (Section 49)

Advertisements  (Section 50)

Trading  (Section 52)

INFORMATION NEEDED PER APPLICATION:

Accesses:  (Section 44)

SANRAL’s documents entitled Procedures for Road Planning and Geometric Design ‘Jan 2003’ and ‘Policy in Respect of Road Planning and Design – Jan 2003’ should be consulted. These and other documents are available on the website by going to www.nra.co.za and clicking on http://www.nra.co.za/downloads.html.

- Motivation/reason for application, i.e. move access, combine access, upgrade due to change of land use and traffic volume increase, new service station development, etc.
- Km distance where access is proposed as well as km distances of all existing accesses to the applicant’s property. (Obtain info from km marker along road.)
- Locality plan to suitable scale.
- Indicate accesses within 1 km range on either side of the road on a line diagram with their respective distances.
- Copy of title deed/deed of transfer of the relevant property or property description as per title deed/deed of transfer.
- Contact details of applicant.

Building Works:  (Section 48)

SANRAL’s written permission is required for erection of structures and other works on, over or below national roads or certain other land in a building restriction area.
Note:

Building restriction area as per definition in the Act: 60m on both sides of the national road as well as within a 500-metre radius of an intersection outside an approved or recognised township or urban area.

SANRAL do not enforce building restrictions on land that has been rezoned from agricultural to land for township development. The original building line imposed by SANRAL as a condition for rezoning will however be applicable and enforceable by the local authority, as SANRAL will not allow future services (not related to a national road) to be established within the road reserve of the national road. It would thus be the responsibility of the local authority’s building inspectorate to enforce the building line along the national road reserve.

For approval of: Town planning/development, cellular telephone masts, extensions to existing structures or any other structure on privately owned land adjacent to the national road.

- Application with contact details/Motivation Report.
- Copy of Deed of Transfer of relevant property.
- Locality plan to suitable scale (can be A4 size with property and national road indicated on it).
- If access is obtained from a national route, indicate on plan the km distance where the access is situated. (Obtain info from existing km marker along road.)
- Site layout plan, with distance of the new building works indicated from the road reserve fence to suitable scale.

Services: (Section 48)

Crossing or parallel to the road i.e.: water, sewerage, electricity, telkom.

- Complete Wayleave Application form (Blank form attached).
- Locality plan to suitable scale.
- Indicate the km distance on plan where the service is located. (Obtain info from km marker.)

Subdivisions: (Section 49)

- Application with contact details/Motivation Report.
- Copy of Deed of Transfer of relevant property.

Notes:
*Any additional information required will be requested from the applicant.*
- Power of Attorney.
- Locality plan to suitable scale (can be A4 size with property indicated on it).
- If access is obtained from a national route, indicate on plan the km distance where the access is situated. (Obtain info from km marker along road.)
- Sub-divisional plan: Indicate the subdivision with access to all portions clearly indicated. Any subdivision/consolidation that may frustrate any of the objectives of Act 7 of 1998 may be refused by SANRAL.

**Outdoor Advertising:** (Section 50)
- Attached herewith copy of blank application form to be completed.

**Brown Tourism Signs:** (Section 50)
- Attached herewith copy of blank application form to be completed.

**Trading:** (Section 52)

Trading adjacent to the national road within the building restriction area or in the road reserve is illegal without SANRAL’s formal approval. Details of illegal trading should be reported to SANRAL.

Purpose of farm stall: To sell farm produce from the farm.
- Motivation/reason
- Locality plan to suitable scale.
- Indicate accesses within 1 km range on either side of the road on a line diagram with their respective distances.
# WAYLEAVE / ENCROACHMENT APPLICATION

APPLICATION AND CONSENT IN TERMS OF SECTION 48 OF THE SA NATIONAL ROADS AGENCY AND NATIONAL ROADS ACT, ACT 7 OF 1998 TO ENCROACH ON THE NATIONAL ROAD RESERVE BOUNDARY OR WITHIN THE BUILDING RESTRICTION AREA

Note – letter of approval by local authority or municipality to be submitted when requested by the Agency.

Advertisement structure
Detailed information regarding the size, height, width and clearance height of the advertisement as well as areas to be illuminated or animated.

Site sketch plan
A sketch plan of the site on which the advertisement is to be erected or displayed, drawn to a scale of roughly 1:500 and for a distance not less than 100m upstream and downstream of the advertisement, showing all natural features and also buildings and structures which may affect sight distance, roads and streets, the national road reserve boundary, street names, route and section numbers, kilometre distances along the national road, all existing advertisements in the area, road traffic signs and traffic signals, the approximate extent of the visual zone, and the dimensional position of the advertisement being applied for.

Elevation plan or photographs
Elevations of the proposed advertisement to a scale of not less than 1:500, or photographs of a size not less than 200 x 250 mm, taken from points on the road reserve from which the advertisement will be visible, at 50 metre intervals along the left hand-most lane of the roadway over a distance of 500 metres upstream of the advertisement, showing the proposed advertisement superimposed thereon. Elevation plans or photographs are only required for large and small electronic billboards, large and small billboards, tower structures, product replicas and three-dimensional advertisements, balcony and under-awning advertisements, forecourt advertisements, tower and pylon advertisements and aerial advertisements. Details of the position from which an elevation plan is provided or a photograph has been taken, the distance from the advertisement, the position of the advertisement and its structure in relationship to its surroundings and the national road must be provided, as well as any other information subsequently required by the Agency.

Additional information to be submitted when requested
When required, the Agency will request the applicant to submit any or all of the following additional information:

Layout plan
A layout plan, drawn to a scale of at least 1:2000 and showing a distance of not less than 500m upstream and downstream of the proposed site of the advertisement being applied for. This plan must accurately show all the information as required for the site sketch plan, the positions from which elevations or photographs are provided, horizontal curve positions, road gradients, speed limits, street and road lighting poles, as well as any other information required by the Agency which will allow a detailed evaluation of any factor which could affect road safety.

Such layout plans may be prepared using 1:2000 completion survey drawings obtainable, when available, from the Agency.

Electrical engineer’s certificate

DOCS_NRA-#377969-v1
When electricity is used, an electrical certificate signed by a licensed electrical engineer or by an inspector duly authorised by a municipality must be submitted stating that the advertisement will comply with the requirements of these regulations as well as any other regulations and requirements related to the use of electricity. The certificate must also show the engineer’s name, registration number, postal address, telephone no, fax no and e-mail address.

**Structural engineer’s certificate**

If required by the Agency, additional drawings, calculations and other information and a certificate by an engineer giving details to the Agency's satisfaction to enable it to establish the adequacy of the proposed means of securing, fixing or supporting the advertisement, to resist all loads and forces to which the advertisement may be exposed and the sufficiency of the margin of safety against failure to comply with the provisions of the national building regulations contemplated in section 17 of the National Building Regulations and Building Standards Act, 1977 (Act No. 103 of 1977). The certificate must also show the engineer’s name, registration number, postal address, telephone no, fax no and e-mail address.

**Additional information on advertisement contents**

When required, the Agency will request the applicant to submit a drawing or photograph at a suitable scale of the advertisement, showing all details of the contents of the advertisement, including words, numbers, symbols, colours, graphics, illumination and animation.

The Agency may also require the applicant to submit an electronic photograph of the erected advertisement, showing the advertisement structure as well as the contents of the advertisement.

**Letter of approval by local authority or municipality**

A letter approval the advertisement structure and contents from the local authority or municipality must be submitted when requested by the Agency.

**Other information**

The Agency may request you to submit additional information or documents.

7. **SUPPORTING INFORMATION:**

The following documentation must be attached:
- Brochure of Facility
- Accommodation Grading Certificate of Facility
- Inspection / Registration Certificate from Tourism Bureau in Association
- Zoning Compliance Certificate (or statement from local Municipality/District Council)
- Traffic Impact Statement / Assessment by recognized Traffic Engineer
- Map or sketch indicating:
  * Numbered routes, roads and streets providing access to Facility
  * Speed limits and surfaces of relevant roads at the required location
  * Existing road signs within 400 m either side of the access at required location
  * Position of required tourism sign(s)
  * Sight distance in all directions
  * Location of Facility (Route number and kilometre distance of the access relating to the blue 200 metre marker boards situated alongside the national road).
  * The distance the facility is situated from the national road and the condition of the road leading to the facility.

Attach the following documentation only where applicable:
- Business Licence, Liquor Licence, Health Certificate, Other relevant certificates or documents.
- Permits (e.g. permit to operate as hunting contractor), approval to operate from Department of Nature Conservation and/or approval to operate from recognized animal protection society/Zoological Society of Southern Africa.

8. **DECLARATION:**

I, ______________________________, hereby declare that the information supplied by me and contained in this Application is complete and correct. Furthermore, I undertake to accept all Conditions applicable to Tourism Signs on National, Provincial and Municipal roads.

Signed: _________________________ Date: _________________________
STANDARD CONDITIONS APPLICABLE TO TOURISM SIGNS ON NATIONAL AND PROVINCIAL ROUTES

The following standard conditions must be complied with at all times in the case of any work undertaken within the statutory width or within a distance 95 metres of the centre line of any building restriction road (Advertising on Roads and Ribbon Development Act, No 21 of 1940) or within the statutory width or within 5 metres of the statutory boundary of any public road (Roads Ordinance, 19 of 1976).

1. All applicants for tourism signs must accept in writing all conditions laid down for the display of such signs before any signs will be erected.

2. No tourism sign will be displayed unless satisfactory arrangements for the display of follow-up signs to the specific facility have been made.

3. All signs erected within the road reserve will become the property of the controlling/road authority. The cost incurred by the applicant for the supply and maintenance of the signs, will be seen as compensation for the privilege to convey the relevant information to the motorist.

4. Applicants shall be aware that subsequent applications for tourism signing may be approved which may result in a reduction of detail such as the name of the facility.

5. All tourism sign approvals issued by the controlling/road authority concerned will only be valid for a period of twelve (12) months from the date of issue. If the approval is not acted upon within the aforementioned period, the approval will lapse and the normal procedure (as for new applications) must then be followed again. In all cases the reference numbers and dates of previous applications and approvals must be quoted.

6. Facility owners indicated on the tourism sign/signs shall be responsible for their pro-rata cost of manufacture, erection and maintenance of the signs.

7. When applications for further tourism signing are received subsequent to the original approval, the new applicant will be responsible for the total cost of all alterations, including the manufacture and erection of new signs where necessary.

8. No other free standing advertising sign or flag may be displayed in the vicinity of the tourism sign/s.

9. The facility owner or applicant shall undertake the following:

   To manufacture - at his own cost - the approved road traffic sign(s) strictly in accordance with the specifications and instructions of the controlling/road authority. The quality of materials and the workmanship shall comply with the requirements set and shall be subject to such tests and by such persons as to controlling/road authority may direct at the place of manufacture or on the site or at all or any such places. The road signs shall be manufactured by a registered approved road traffic sign manufacturer.

   To supply - at his own cost - the approved road traffic sign(s) to the controlling/road authority in good condition for erection by the controlling/road authority.
To compensate in full the controlling/road authority for any expenditure incurred by such controlling/road authority in connection with erection, installation of the road traffic signs and completion of the works within the road reserve.

To compensate in full the controlling/road authority for any expenditure incurred by such controlling/road authority in connection with repairs to the sign damaged as a result of—
   a) the installation or maintenance of or repairs to, or
   b) any shortcomings or defects, caused in any way whatsoever in the relevant road traffic sign installed or any section of such sign.

9.5 Not to hold the controlling/road authority responsible or liable for any costs incurred or any loss suffered in the event of such controlling/road authority directing for any reason whatsoever the removal or the shifting or the relocation of or any alteration to any pole, stay, strut, sign, etc. erected or laid within the statutory width of any public road or within a distance of five (5) metres of such statutory width.

9.6 To indemnify the controlling/road authority against all claims of whatever nature, including legal costs, by any person, including the facility owner, originating from or as a result of the erection of any pole, stay, strut, sign, etc, or as a result of the negligence of the controlling/road authority to maintain or safeguard properly the said pole, stay, strut, sign. etc.

9.7 Not to hold the controlling/road authority liable for any damage to any pole, stay, strut, sign, etc. by whomsoever including any damage caused by the activities of the controlling/road authority in connection with the construction, reconstruction or maintenance of the building restriction road/public road concerned or by any other action of the controlling/road authority unless negligence on the part of such controlling/road authority or its officials or employees can be proved.

9.8 If in the opinion of the controlling/road authority a facility to which a tourism sign has previously been provided no longer complies with the basic warrants for such a facility, such a sign shall be removed at the sole discretion of the controlling/road authority and the facility owner shall be liable for all incurred costs associated with the removal of or alteration to the relevant facility sign.

10. Only the relevant controlling/road authority is authorized to erect the tourism signs. The nominated facility owner shall be responsible for contacting the controlling/road authority to erect the signs once the signs have been manufactured. Only signs with approved sign-face designs shall be erected. The signs will then be handed to the controlling/road authority who will erect the signs on behalf of the applicant. The controlling/road authority will recover the erection cost from the applicant by submitting a written quotation that must be accepted and settled by the applicant before the erection of the sign will take place.

11. The maintenance cost for signs leading to facilities that belong to a number of different owners will be claimed from the original owner who in turn will recover such costs proportionally from the different owners.

12. The work may only be carried out provided the foregoing conditions, where applicable, were accepted in full and provided all the prescriptions requirements and obligations, which the controlling/road authority might impose in connection with the work over, under or along the road(s), are accepted and complied with.
13. DECLARATION

I, ____________________________ (name of applicant / facility owner) of ____________________________ (name of facility),

hereby accept the above Conditions for the erection of tourism road signs.

________________________________________  ______________________________
Signature of Applicant / Facility Owner               Date
