

With the rand in hand, you can see everything our country has to offer.

If you think it's pretty from 30 000 feet, you should see it from down there. To make the most of your journey, make sure you have South African currency on you before setting off on one of our world-class **toll routes**. This way, you'll move through our tollgates quickly and effortlessly. A good thing because there's a lot to see.

Please have South African Rands (ZAR), preferably in small denominations, handy for toll payments. Unfortunately, we do not accept American Express or Diners Club cards.
